

# British Weather

Britain is famous for its weather. It doesn't rain as much as people thinks it does, but it's always safe to have an umbrella.

The average temperatures in every month in London are:

	Usual High Temperature °C	Usual Low Temperature °C	Usual Average Temperature °C
January	6	3	5
February	7	3	7
March	10	4	9
April	13	6	11
May	17	9	14
June	20	12	16
July	22	14	19
August	21	14	19
September	19	12	17
October	14	9	13
November	10	6	10
December	7	3	7

You should bring clothes that are good for the time of year. And remember comfortable shoes - you will probably do a lot of walking in London.
